Dear Sir,

**Re: Letter of Appreciation**

I still can recap at the early stage when the company has decided to replace the previous Property Software to your Property Sales System. We were worried about this and that. However, we decided to give it a try and we never turn back. Now we are really happy that the management has made the right decision.

Your team of supports and programmers had been excellent in successfully completed the data conversion from our old application to your Property Sales System. The whole department greatly appreciates it as we know that what data problems and corruption could do to our daily operations.

The product itself is well designed, user-friendly, simple and flexible to operate, yet they had the powerful features and reporting that our company required. Well, the finance seems to be happy as the product is not over priced and it is a one time investment with no hidden cost. Whenever we face a problem, your support team is easily accessible, friendly, dedicated and no miscommunication.

Thus, we highly recommend this product to any of your prospect. If your prospect has any questions, tell them to contact me at 03-8061 8033 and I will assist in anyway possible.

Thanks again for the hard work and we look forward to our continued relationship.

Yours faithfully,  
For and on behalf of
