Dear Sirs

Letter Of Appreciation

We would like to express our sincere thanks and appreciation to DSI Systems as a whole for your technical support, system updates and on-going customer service with regard to successfully implemented computerized into our Company.

We have confidence with the Team provided, and this is why we are running more than one application. Currently we are using Property Sales System, Residential Management System, Assets Management and last but not least Financial Management System.

We found that all the applications are simple to operate; yet they had the powerful features and reporting that our company required. They are not over priced, every time we needed help, it has been a prompt response from the team member within 4 hours after receiving a call from us.

We also believe you are the only company that does not charge extra for technical support, probably because your product is the only one that doesn't need any major support since its so easy to use. We are happy that no hidden cost is occurring during the services extended to us.

It has been a pleasure working with you and your team and I would highly recommend these solutions to any company that is looking to streamline their existing operations

Thank you

Yours faithfully
For and on behalf of
PETALING GARDEN BERHAD
